IDEAL heat "for all the people"

Never before have people demanded and enjoyed so many modern conveniences. But the greatest improvement of all-HOT WATER HEATING-has heretofore been denied the wage earner because of the cost of excavating a cellar. With the invention of the IDEAL ARCOLA Radiator-Boiler-piping is simplified and a cellar is not needed.

New IDEAL ARCOLA radiator-boiler

Puts IDEAL HOT WATER HEATING comfort in workingman's coitage, cellarless small stores, country schools, cellarless churches, etc.

The IDEAL ARCOLA takes the place of a parlor stove. But a stove wastes much of its heat up the chimney, whereas the IDEAL ARCOLA is water-jacketed, and conveys its heat by hot water circulation through pipe-connected AMERICAN Radiators stationed in the adjoining rooms. Every bit of the big volume of heat developed from each pound of fuel is therefore made useful in keeping ALL the rooms uniformly, healthfully warm. There is no coal-waste. The IDEAL ARCOLA does not rust out or wear out—will outlast the building—is a genuine, permanent

Shipped complete ready for immediate operation

The beauty of the IDEAL ARCOLA method is that no cellar is needed. Everything is on one floor. The ARCOLA is placed in any room that has a chimney connection. No running to cellar. If there are two or more tenants in the building, each can have his own ARCOLA and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL ARCOLA and later on buy extra sections for the IDEAL ARCOLA and two or three more radiators to warm more rooms.

Cleanly heating—healthful heating—free from fire risks!

Unlike stoves, there are no coal-gas leaks into the living rooms. The IDE/L ARCOLA delivers the soft, radiant warmth of hot water—not the dry, burnt-out atmosphere of stove heating. There is n fir -risk to building—no danger to children—fire lasts for hours! The ARCOLA burns hard or soft coal, coke, as, or wood. Brings cost of heating down to the lowest notch-and gives IDEAL comfort.

> Put in quickly without disturbing your stove till ready to start fire in the new outfit. Sold by all dealers. Send or catalog "IDEAL ARCOLA Hot Water Heating." Phone or write today!

The IDEAL ARCOLA will look attractive in any room-paint it to match any interior color scheme.

VIVIANI GIVES VIEWS ON NEEDS OF LEAGUE

LYONS, France, March 10.-Rene Vineeting of the French association for a cague of nations, at which Leon Bourgools, the French proponent of the

geois, the French proponent of the league, presided, said:
"To make the league of nations a reality we must count less on the goodness of men than the interest of nations. Hundreds of thousands of our children have fallen to deliver us from the nightmare of war, and if we do not succeed in demonstrating that institutions to insure liberty are stronger than those of autocracy, because the former have for a basis and object reason and conscience and the latter force, we shall not be worthy of the heroic testament which those young men, swept away in the flower of their youth? have fransmitted to us."
